

Enterprise Marketplace

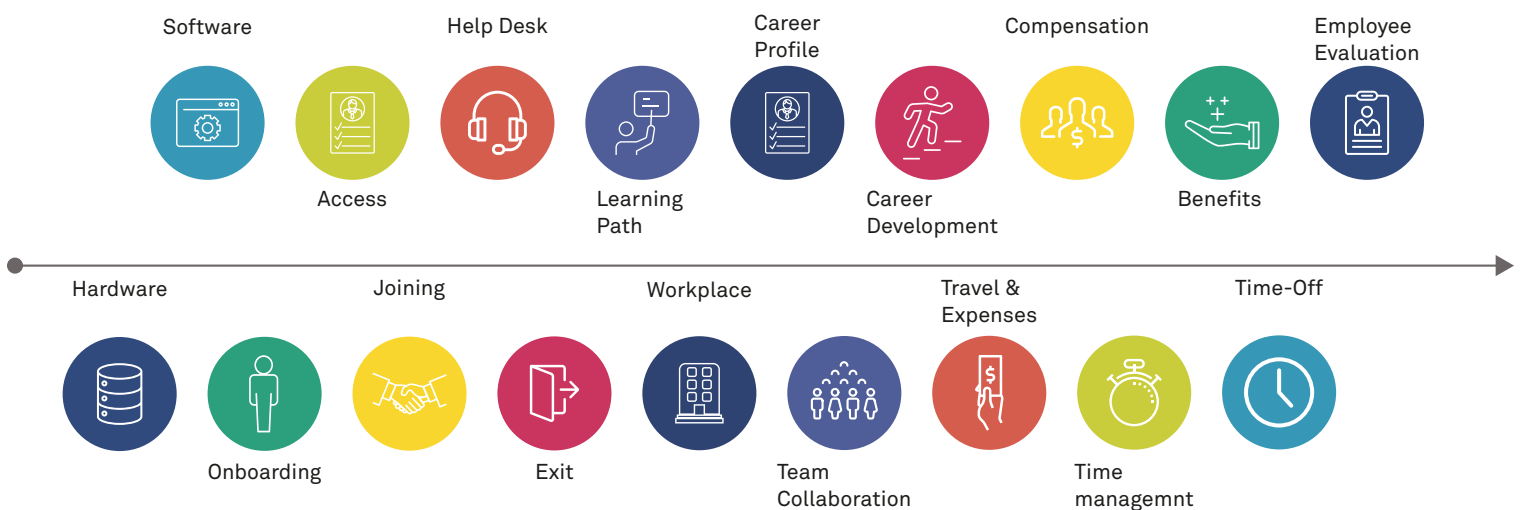

Employees engage with the platform to search, transact, collaborate or gain insights. Enterprise needs to provide a simple, seamless and intuitive experience that is easy to consume.

Providing single-window, unified experience for all employee needs in a personalized, accessible across ubiquitous interface, anytime-anywhere-any device

Some examples of this work

- Technology & process blue prints
- Future vision roadmap
- Mobile-first applications
- AI-led enablement

Key solutions

- Employee Journey Map
- Connected Employee
- Case Management & implementations
- Unified Collaboration Platforms
- Integrated Voice/Video

Framework

With a mobile-first approach and AI-led transformation, Wipro uses Digital Experience Platform to integrate APIs and containers, all applications with a single window approach.

The employee enjoy a seamless experience, where all their needs are served through self-serve or enhanced user support.
