# PSBs' Governance & HR Policy Tweak in the Works

**KEY PROPOSALS** Longer tenure for executive directors, hiring of specialists

Dheeraj Tiwari@timesgroup.com

**New Delhi:** The government is considering measures to further strengthen corporate governance and human resource practices in nationalised banks through a diversified board structure, strengthening of board-level committees and a robust performance management system for employees.

"The merger process is complete and now it's high time to revamp the corporate governance and HR practices on the lines followed by banks such as State Bank of India," said an executive aware of the developments.

Some of the key proposals include longer tenure for executive directors, hiring of specialists in areas such as NPA management and fast track promotion for high performers.

"The idea is to further professionalise the boards of PSBs and bring experts in risk management, information technology and human resource management," the above quoted executive said, adding that after merger, these banks are as big as State Bank of India.

The government announced the merger of 10 public sector banks into four big ones in August 2019, bringing down the number of PSBs in the country to 12 from 27.

Oriental Bank of Commerce and United Bank of India were merged into Punjab National Bank; Syndicate Bank was merged with Canara Bank; Allahabad Bank

Need felt after consolidation for large banks

Govt had announced merger of 10 PSBs into four big ones in August 2019, bringing down the number of PSBs in the country to 12 from 27

**On the table:**

- Diversified board structure, strengthening of board-level committees
- Hiring of specialists in areas such as NPA management
- Fast track promotion for high performers
- Focus on exposure to core functions for key executives

with Indian Bank, and Union Bank of India with Andhra Bank and Corporation Bank. Punjab National Bank (PNB) is the second-largest public sector bank after the merger.

These discussions may be further taken up with the Banks Board Bureau to formulate a long-term strategy.

"It has been observed that while there is a need for specialists, top-level posts also need to have experience of core functions," said another executive, adding that there is a need to groom people from the parent bank who can take up higher assignments later.

One of the key mandates of BBB is to help banks to develop a robust leadership succession plan for critical positions and advise the government on evolving suitable training and development pro-

grammes for management personnel.

"BBB will also maintain a database on performance of the officers of PSBs. This will have information regarding postings, placements, promotions and vigilance of senior officers," he added.

Banks through Ease 4.0 may also take up these issues at their board level. Launched in January 2018, Enhanced Access and Service Excellence (Ease) is the common reform agenda for all public sector banks aimed at institutionalising clean and smart banking.

"We have suggested to identify competencies and conduct competency assessment of Scale V and Scale VI officers with significant tenure left in the bank through board-approved tools and methodologies," said the above quoted executive.

# FDI in India, 3 Others Rose in 2020 Amid 35% Fall Globally: UNCTAD

Our Bureau

**New Delhi:** India along with China, Hong Kong and the United Arab Emirates witnessed a 4% growth in foreign direct investment (FDI) flows in the pandemic-hit 2020, defying the global trend of declining investment, according to the United Nations Conference on Trade and Development (UNCTAD).

The four countries received FDI worth \$535 billion in 2020. India was the fifth largest recipient of inflows in the world though the Covid-19 second wave weighs heavily on the country's overall economic activities but its strong fundamentals provide "optimism" for the medium term while global FDI flows dropped 35% to \$1 trillion from \$1.5 trillion in 2019.

The pandemic boosted demand for digital infrastructure and services globally. This led to higher values of greenfield FDI project announcements targeting the ICT industry rising by more than 22% to \$81 billion. Major project announcements in the ICT industry included a \$2.8 billion investment by online retail giant Amazon in ICT infrastructure in India.

In its World Investment Report 2021, UNCTAD said FDI in South Asia rose 20% to \$71 billion, driven mainly by a 27% increase in FDI in India to \$64 billion.

"In India, robust investment in ICT (information, communication, technology) and construction bolstered FDI inflows," UNCTAD said, adding that cross-border M&As surged 83% to \$27 billion, with major deals involving ICT, health, infrastructure and energy.

# Crude Oil Output Slips 6.3% in May

**New Delhi:** Crude oil production fell 6.3% year-on-year in May while natural gas output rose 19%, according to the petroleum and natural gas ministry data.

A 9.6% drop in ONGC's output was primarily responsible for the overall production contraction. Oil India's production fell 2.1% while output from the fields operated by private players increased 0.7%.

ONGC is facing a natural decline of output from its ageing fields. In May, oil and gas production was also affected by cyclone Tauktae that hit Arabian sea and disrupted ONGC's operation off the Mumbai coast. Crude oil imports rose 18% in May from a year ago. The import of refined products fell 26% while their export fell 2%. Overall consumption of petroleum products in the country contracted 1.5% in May as lockdown restricted mobility and economic activity—Our Bureau

# Second Wave Impacted 58% of Indian Cos: Ficci

Cost management, weak demand in urban, rural areas seen as challenges

Our Bureau

**New Delhi:** The second wave of Covid-19 and resultant lockdowns in several states significantly impacted about 58% of Indian companies but India Inc remains optimistic about a strong recovery in the coming months, a private industry survey has said.

About 58% of respondents cited weak demand as a major challenge in the current environment, the survey conducted this month by Federation of Indian Chambers of Commerce and Industry (Ficci) and Dhruva Advisors showed.

While urban demand saw a sharp hit, 37% of firms reported a high impact on sales in rural markets as well, Ficci said in a statement on Monday.

Another industry association, PHD Chamber of Commerce and Industry has urged the government to boost infrastructure spending to support economic recovery and help boost demand.

To refuel aggregate demand, the government should front load expenditure under the national infrastructure pipeline, PHDCCI president Sanjay Aggarwal said in a statement on Monday.

As per the Ficci survey, about 56% respondents also cited managing costs as a key challenge for businesses.

Yet, most companies are confident about a speedy recovery. "With the number of new cases ebbing and states getting into the 'unlock' mode, there is hope that business and economic activities would regain normalcy in the months ahead," said

### WEAK DEMAND

# Biz Uptick Continues, Nomura Index Rises to October Levels

Our Bureau

**New Delhi:** Uptick in business activity continued into June, reaching levels last seen in October, according to data from Japanese brokerage Nomura.

The Nomura India Business Resumption Index (NIBRI) picked up to 81.3 for the week ended June 20, from 74.9 recorded a week earlier, the firm said in a note on Monday.

This also represented a 21.1 percentage point (pp) gain from the nadir seen in May-end, which felt the brunt of the impact of the second wave of Covid-19, the note said.

The improvement in the index was led by mobility as Google's workplace and retail and recreation mobility indices increased by 6.7pp and 11.9pp, respectively, from the previous week, while the Apple driving index jumped by 16.2pp, continuing a trend of solid weekly improvement.

While the relaxed lockdown measures and moderating cases were expected to trigger a snap back in mobility, the real economy would likely show improvements only gradually, Nomura said.

However, "a third pandemic wave over the next few months is a key risk that bears monitoring," Nomura economists Sonal Varma and Aurodeep Nandi said in the note.

Other high-frequency indicators tracked by the index like labour participation rate inched up to 40.5 from 39.8 in the previous week, even as the unemployment rate rose by 0.7pp to 9.4%.

On the other hand, power demand contracted by 2.2% compared to a week earlier after rising by a weekly average of about 5.8% over three consecutive weeks.

The firm expected strong global growth, ongoing vaccinations, easy financial conditions and front-loaded fiscal activism to support its FY22 forecast of 10.4% growth.
