Wipro Secures Contract to enhance MAHLE's IT Infrastructure with Hybrid Cloud Solutions

The multi-year engagement aims to improve MAHLE's business agility and compliance

STUTTGART, Germany | BENGALURU, India – July 31st, 2024: Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading technology services and consulting company, announced that it has been selected by MAHLE, a global automotive supplier, to transform their IT infrastructure with an innovative hybrid cloud solution.

MAHLE's ambition was to provide a high quality and innovative service, allowing their internal customers to focus on their core business thereby enabling sustainable growth.

As part of this multi-year project, Wipro will migrate MAHLE's two core data centres into Wipro FullStride Cloud's hybrid cloud solutions. This will enable MAHLE's IT ecosystem to support business agility, standardize and digitize their IT ecosystem while meeting all regulatory requirements.

This enhanced business flexibility will allow MAHLE to adjust their data and computing capacity consumption based on market conditions, significantly reducing their IT costs.

Jo Debecker, Managing Partner and Global Head Wipro FullStride Cloud said, "This engagement is a testament to Wipro FullStride Cloud's unmatched expertise in providing bespoke cloud services to boost our client's business agility, compliance, and growth. We are especially delighted with this strategic engagement to help MAHLE realize their ambitions as their business ethos and ethical values are very similar to Wipro's, making this an ideal project for both parties."

"The strategic partnership with Wipro is an important step to improve our IT infrastructure, but also provides us with the agility and scalability to meet the changing needs of our business and the automotive industry," said **Markus Bentele, MAHLE Vice President Information Technology**. "The hybrid cloud solution will enable us to better support our customers and adapt quickly to market changes."

MAHLE provides products, services and systems for both passenger car and commercial vehicle sectors. Founded in 1920, the technology group is working on the climate-neutral mobility of tomorrow, with a focus on the strategic areas of electrification and thermal management as well as further technologies to reduce CO₂ emissions, such as fuel cells or highly efficient, clean combustion engines that also run on renewable fuels, such as hydrogen.

Note: The deal was mentioned in Wipro Limited's financial results announcement press release, dated April 19th, 2024, for the quarter-ended March 31st, 2024, with a description of Mahle, but without naming the company.

About Wipro Limited

Forward-Looking Statements

The forward-looking statements contained herein represent Wipro's beliefs regarding future events, many of which are by their nature, inherently uncertain and outside Wipro's control. Such statements include, but are not limited to, statements regarding Wipro's growth prospects, its future financial operating results, and its plans, expectations and intentions. Wipro cautions readers that the forward-looking statements contained herein are subject to risks and uncertainties that could cause actual results to differ materially from the results anticipated by such statements. Such risks and uncertainties include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, complete proposed corporate actions, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our business and industry.

Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission, including, but not limited to, Annual Reports on Form 20-F. These filings are available at www.sec.gov. We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
