## **Wipro Achieves Modern Compute and Managed Application Security Testing Specialization Distinctions in the AWS Level 1 MSSP Competency**

**NEW YORK | BANGALORE, India – Aug. 2, 2022–** Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading technology services and consulting company, announced that it has achieved **Modern Compute Security** and **Managed Application Security Testing Specialization distinctions** in the [Amazon Web Services \(AWS\) Level 1 Managed Security Service Provider \(MSSP\) Competency](#). The AWS Level 1 MSSP Competency provides a faster and easier experience for customers to select the right MSSP to help them achieve their goals for business risk and cloud strategy confidence.

“Wipro was a launch partner for AWS Level 1 MSSP Competency and we are proud to achieve additional specialization distinctions that benefit our clients,” said **Tony Buffomante, Senior Vice President and Global Head, Cybersecurity and Risk Services, Wipro Limited**. “Wipro is securing the modern enterprises by providing transformational cloud security solutions, delivery excellence and continuous innovations leveraging AWS native security capabilities.”

Wipro added two new AWS Level 1 MSSP Specialization Distinctions:

1. **Modern Compute Security:** Managed security services for containerized workloads running on AWS. This provides a shift left approach, automating compliance and reporting through **Wipro’s Cloud Application Risk Governance (CARG) platform**. Wipro’s capability includes support for various operating systems, programming languages and provides dashboards and reports depicting security posture of AWS environment.
2. **Managed Application Security Testing:** Managed security services including code pipeline scanning for software vulnerabilities, routine penetration testing, and static/dynamic code analysis. This offers threat modelling, static and dynamic application security testing, penetration testing and development, security, and operations (DevSecOps) to provider hyper agile delivery of cloud native applications.

The Managed Security Services accreditation differentiates Wipro’s AWS Managed Security Services to protect, monitor and improve security posture of AWS environment round the clock. It enables AWS customers to easily acquire ongoing security monitoring and management, validated by AWS. AWS security experts annually validate the tools used and operational processes of each MSSP address specific cloud security challenges such as continuous event monitoring, triaging, AWS service configuration best practices, and 24/7 incident response.

### **About Wipro Limited**

Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO) is a leading technology services and consulting company focused on building innovative solutions that address clients’ most complex digital transformation needs. Leveraging our holistic portfolio of capabilities in

consulting, design, engineering, and operations, we help clients realize their boldest ambitions and build future-ready, sustainable businesses. **Forward-Looking Statements**

The forward-looking statements contained herein represent Wipro's beliefs regarding future events, many of which are by their nature, inherently uncertain and outside Wipro's control. Such statements include, but are not limited to, statements regarding Wipro's growth prospects, its future financial operating results, and its plans, expectations and intentions. Wipro cautions readers that the forward-looking statements contained herein are subject to risks and uncertainties that could cause actual results to differ materially from the results anticipated by such statements. Such risks and uncertainties include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, complete proposed corporate actions, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our business and industry.

Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission, including, but not limited to, Annual Reports on Form 20-F. These filings are available at [www.sec.gov](http://www.sec.gov). We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
