Wipro FullStride Cloud Studio partners with Google to accelerate clients' journey to the Cloud

The partnership will deliver faster cloud migration tied to business outcomes

EAST BRUNSWICK, N.J. | BANGALORE, India – May 15, 2023: Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading technology services and consulting company, today announced that its FullStride Cloud Studio has partnered with Google Cloud's Rapid Migration Program (RaMP) to help clients accelerate their journey to the cloud and pursue a migration strategy anchored in business outcomes.

Wipro will integrate its proven framework, together with artificial intelligence (AI) and automated tooling, into RaMP, which will help clients increase efficiency, agility, and time to market.

Leveraging Wipro FullStride Cloud Studio's industrialized 'as-a-service' model, the partnership will deliver faster returns on cloud investments. Wipro FullStride Cloud Studio has a track record of helping clients achieve up to 5X faster Cloud adoption at 30% lower cost, 90% automated post migration activities, and 3X faster business acceptance.

This partnership with Google builds on Wipro's existing collaboration with Google and Google Cloud Professional Services Organization and aims to deepen the value delivered to joint clients.

Jo Debecker, Global Head of Wipro FullStride Cloud, said: "Wipro FullStride Cloud Studio is pleased to be the first partner selected for Google Cloud RaMP. Our ability to execute complex and large migrations, using our IPs and accelerators will allow mutual clients to drive business transformation at scale, in one place. This new partnership is a testament to our strong and valued collaboration with Google Cloud, where both organizations enable fast, cost-effective cloud migration, as well as modernization and transformation services."

Stephen Orban, Vice President of Migrations, Google, said: "Wipro will play an important role helping enterprises accelerate the cloud migrations process, with global expertise and clear blueprints to help customers swiftly move their largest workloads. By combining the FullStride Cloud Studio with our world-class RaMP program, Wipro can provide customers with the efficiency and structure they need to optimally evaluate and execute large-scale cloud migrations to Google Cloud."

Wipro FullStride Cloud Studio is a foundational capability for Wipro's new FullStride Cloud Global Business Line. The Studio helps companies drive business transformation at scale, leveraging its proprietary platforms, IP, and talent to migrate, modernize, transform, and manage clients' cloud environments—even across the most heavily-regulated industries, such as Healthcare and Financial Services.

About Wipro Limited

Forward-Looking Statements

The forward-looking statements contained herein represent Wipro's beliefs regarding future events, many of which are by their nature, inherently uncertain and outside Wipro's control. Such statements include, but are not limited to, statements regarding Wipro's growth prospects, its future financial operating results, and its plans, expectations and intentions. Wipro cautions readers that the forward-looking statements contained herein are subject to risks and uncertainties that could cause actual results to differ materially from the results anticipated by such statements. Such risks and uncertainties include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, complete proposed corporate actions, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our business and industry.

Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission, including, but not limited to, Annual Reports on Form 20-F. These filings are available at www.sec.gov. We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
