Wipro positioned as a ‘Leader’ in Avasant’s Hybrid Enterprise Cloud Services 2021-2022 RadarView™

New York, USA and Bangalore, India – May 2, 2022: Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading global information technology, consulting, and business process services company, announced that it has been recognized as a Leader in Avasant’s Hybrid Enterprise Cloud Services 2021-2022 RadarView™ report.

Wipro FullStride Cloud Services’ industry leading cloud portfolio and work with clients achieved a 5-star rating across the three dimensions of practice maturity, partner ecosystem, investments and innovation.

- Practice maturity – A transformative approach to help clients augment their existing cloud capabilities by building new industry-specific solutions, series of acquisitions, and investments in talent.
- Partner ecosystem – A growing network of industry ecosystem partners that help deliver enhanced value to clients—such as the Wipro Google Cloud Innovation Arena, as well as other strategic endeavours with leading ERP and cloud governance providers
- Investment and innovation – Acquisitions in 2021 (Capco and Ampion) led to establishing the firm as a leader in digital transformation and consulting. The report also recognised cutting-edge digital engineering services, including the firm’s enterprise cloud community that consistently interacts through its crowdsourcing platform, Topcoder.

Gaurav Dewan, Associate Research Director, Avasant, said, “During the pandemic, enterprises looked for shorter hybrid cloud implementation cycles and shifted from deploying point solutions to the complete modernization of IT infrastructure. Wipro addressed this emerging trend with a new cloud transformation approach, Wipro FullStride Cloud Services, and positioned itself as a full-stack service provider. Wipro brought all its consulting teams across domains into a single umbrella and offered a series of standard blueprints and industry solutions to help accelerate time to market. It also strengthened its partnership with major cloud service providers and recently launched the cloud innovation arena in India in collaboration with Google Cloud to promote innovation and joint solutioning.”

“Wipro’s initiatives to integrate its cloud services, develop industry-specific solutions, and co-innovate with major cloud service providers have placed Wipro as a Leader in Avasant’s Hybrid Enterprise Cloud Services 2021–2022 RadarView.”

Milind Halapeth, Vice President and Global Head of Cloud Practice, iCORE, Wipro Limited, said, “We are pleased to be named a ‘Leader’ in Avasant’s Hybrid Enterprise Cloud Services 2021-2022 RadarView™ report. This recognition reinforces the business-first approach we have at Wipro FullStride Cloud Services where we partner with leaders to bridge the gap between ambition and ability. As we continue to empower clients to unlock the strategic value of cloud, we look forward to becoming the preferred transformation partner that helps drive innovation, growth and resiliency.”

About Wipro Limited

Forward-Looking Statements

The forward-looking statements contained herein represent Wipro’s beliefs regarding future events, many of which are by their nature, inherently uncertain and outside Wipro’s control. Such statements include, but are not limited to, statements regarding Wipro’s growth prospects, its future financial operating results, and its plans, expectations and intentions. Wipro cautions readers that the forward-looking statements contained herein are subject to risks and uncertainties that could cause actual results to differ materially from the results anticipated by such statements. Such risks and uncertainties include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, complete proposed corporate actions, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our business and industry. Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission, including, but not limited to, Annual Reports on Form 20-F. These filings are available at www.sec.gov. We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company’s filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
