IT Services (76% of Total Revenue and 93% of Operating Income for the year ended March 31, 2012)

The IT Services segment had 135,920 employees as of March 31, 2012, an increase of 13,535 people in the year. We added 41 new customers for the quarter and 173 new customers during the year.

Our investments in building deep domain knowledge and innovative delivery models to provide predictive outcomes to our clients have helped garner greater customer mindshare and helped win strategic deals.

The National University of Singapore, the largest university in Singapore and one of the most reputed in the APAC region, has chosen Wipro as a partner for a multi-million dollar IT Infrastructure Services engagement. This partnership constitutes one of the largest IT outsourcing engagements by the Singapore Government in the Higher Education sector.

Wipro has signed a multi-year deal with a large financial institution to provide development and operational support services. The scale and scope of this project will improve information lifecycle management, regulatory compliance and enhance data quality. This will help our customer achieve a leadership position in the market and help integrate acquisitions faster.

A leading global computing peripherals provider has selected Wipro to reduce the total cost of ownership of R&D for its legacy product portfolio. Wipro will be responsible for sustenance and enhancement of firmware for a large family of devices for the next 5 years.

Wipro has won a multi-year engagement with a leading communication service provider in North America, to provide technical support services and in future, enable a set of IT and Operations transformation initiatives.

Wipro won a large contract facilitated by NABARD to provide the total solution and implement core banking solutions (CBS) in the identified State Co-operative Banks and Central Co-operative Banks including providing the required database, middleware, network, project implementation and project management. With the help of CBS, the co-operative banks will facilitate the optimal technology use in rural financial sector.

Awards and accolades

Wipro was recognized by the Ethisphere Institute, a leading business ethics think-tank, as one of the 2012 World's Most Ethical (WME) Companies. This recognition is for a select number of companies from around the world who demonstrate consistently high levels of transparency, ethics and corporate responsibility.

Wipro won the prestigious Managed Services Vendor of the year 2011 from Corporate Publishing International (CPI), Dubai. The CNME awards are an annual event that recognizes both End Users and Vendors across 20 categories and this year the winners were chosen from 210 nominations.

The USPTO (United States Patent and Trademark Office) has granted a patent to Wipro for its invention in the area of Information management. The patent proposes an unique system and method which streamlines and improves overall efficiency of data migration and governance processes. The solution establishes an automated migration environment with repeatable and reusable processes for information led business transformation initiatives.

On April 2, 2012, Standard & Poor's Ratings Services raised its long-term corporate credit rating on Wipro to 'BBB+' from 'BBB'. The outlook is stable.

About Non-GAAP financial measures

This press release contains non-GAAP financial measures within the meaning of Regulation G and Item 10(e) of Regulation S-K. Such non-GAAP financial measures are measures of our historical or future performance, financial position or cash flows that are adjusted to exclude or include amounts that are excluded or included, as the case may be, from the most directly comparable financial measure calculated and presented in accordance with IFRS.

The table on page 7 provides Adjusted Net Income for the period, which is a non-GAAP measure that excludes the impact of accelerated amortization in respect of stock options that vest in a graded manner, and IT Services Revenue on a constant currency basis, which is a non-GAAP measure that is calculated by translating IT Services Revenue from the current reporting period into U.S. dollars based on the currency conversion rate in effect for the prior reporting period. We consider a stock option award with a graded vesting schedule to be in substance a single award not multiple stock option awards and accordingly believe the straight line amortization reflects the economic substance of the award. We refer to growth rates in constant currency so that business results may be viewed without the impact of fluctuations in foreign currency exchange rates, thereby facilitating period-to-period comparisons of our business performance. We believe that the presentation of this Non-GAAP Adjusted Net Income, when shown in conjunction with the corresponding IFRS measure, provides useful information to investors and management regarding financial and business trends relating to its Net Income for the period

These Non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles and should not be considered a substitute for, or superior to, the most directly comparable financial measure calculated in accordance with IFRS, and may be different from non-GAAP measures used by other companies. In addition to these non-GAAP measures, the financial statements prepared in accordance with IFRS and the reconciliation of these non-GAAP financial measures with the most directly comparable IFRS financial measure should be carefully evaluated.

For internal budgeting process, our management also uses financial statements that exclude the impact of accelerated amortization relating to stock options that vest in a graded manner. Management of the Company also uses Non-GAAP Adjusted Net Income, in addition to the corresponding IFRS measure, in reviewing our financial results.

Results for the year ended March 31, 2012, computed under IFRS, along with individual business segment reports, are available in the Investors section of our website at www.wipro.com.
