# FastTrack NetSuite Implementation Packs

Rapid Oracle-NetSuite implementation for technology, software and services industries

Introduction

There are several benefits of utilizing SaaS to implement an ERP system including cost, scalability, innovation, and efficiency. As technology continues to improve and infrastructure costs increase, more companies will adopt SaaS to deliver their ERP applications. Innovation is key to growth. Faster innovation leads to quicker achievement of goals.

The Solution

Wipro's FastTrack NetSuite Implementation Packs (FNIP) powered by Oracle-NetSuite is the solution to support your business growth. It bundles key Cloud modules into packs, enabling you to pick the exact set of business processes that you want to transform.

The Wipro-enriched SuiteSuccess methodology helps to deploy the solution faster, without any business disruption. This leading Cloud ERP solution can accommodate companies of varying sizes – from start-ups to large enterprises. Oracle-NetSuite's flexibility allows you to scale up, spin off and adopt new business models, faster and simpler.
