

Wipro's Complete Care solution

Built on Microsoft Dynamics 365 platform, this solution connects various healthcare stakeholders to deliver 'best in class' care to patients.

Introduction

It has become imperative to not just understand but empathize and walk through patient journeys to see how technology can help them live better and healthier lives. Healthcare organizations have an opportunity to create an **end to end patient journey** that can guide patients, doctors, care teams, and hospital administrators with **intuitive and optimized business process flow** while maximizing productivity and efficiency.

Healthcare institutions are recognizing this shift towards increased patient autonomy and a need for improved collaboration between various stakeholders in the patient journey.

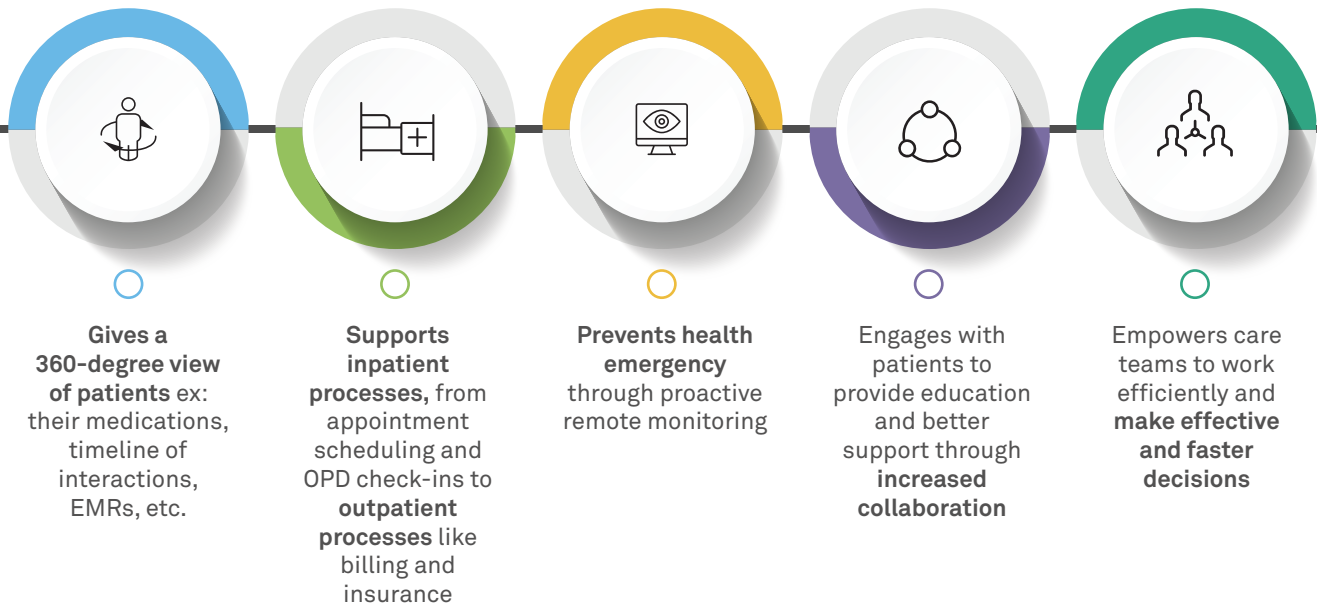

The solution

Wipro's 'Complete Care' solution, built on **Dynamics 365 platform** enables doctors, care teams and patients to leverage the Microsoft technology platform to drive innovation, reduce costs and improve patient outcomes. It lays down the foundation for personalized care and provides a 360° patient view, to enable effective and efficient healthcare decision-making. It is a unified platform to enable all healthcare stakeholders with native integrations to MS

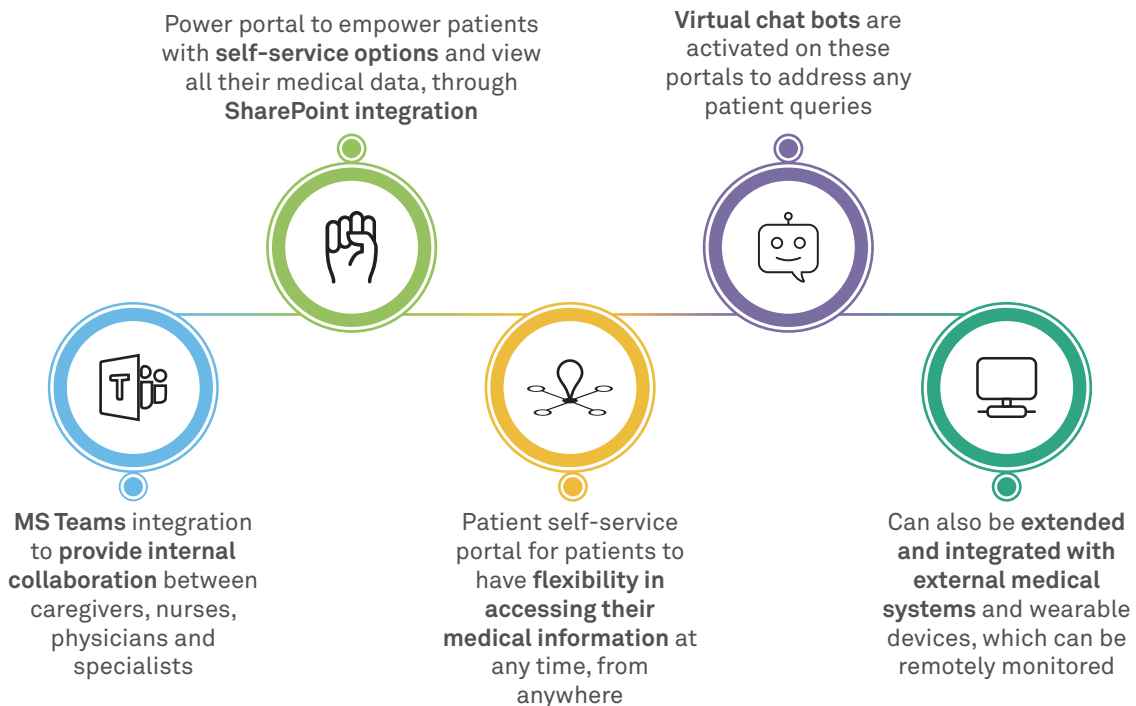

teams, virtual bots, self-service portals, and mobile apps, IoT Hub for health alerts and is extendible to support external medical systems. It is a one stop solution to enhance collaboration between patients, care teams, physicians/specialists, payors, and various other stakeholders. It is also a remote assistance tool for smart wearables and empowers patients with self-service options to help reach their healthcare goals.

Benefits

Features

Wipro's Complete Care solution based on Microsoft D365 platform drives patient journeys with intuitive design and personalized care.

This solution is a step towards building better lives through innovation
