

Wipro's Supply Chain Status Visibility solution

Deploy a quick and effective solution for end-to-end visibility of supply chain status in real time, on Dynamics 365 SCM

Many niche life sciences start-ups are building molecules/compounds to strengthen the immune system of the body, to fight cancer, various viral infectious diseases etc. The onset of the coronavirus pandemic has led to a surge in demand for these compounds, which the start-ups are unable to meet due to reasons like inadequate infrastructure to track sudden surge in orders, distribution and financials (order to cash) etc.

Wipro's Supply Chain Status Visibility solution addresses these challenges by enabling such start-ups to have a better order and distribution management system.

Key takeaways

Real-time visibility of customer order fulfillment by third party warehouse, contract manufactures and transporters

Notify customers about the current status and any changes expected on delivery date

Real-time dashboard with the number, value of orders and accounts receivables

Fulfill customers' orders efficiently to improve customer satisfaction and customer retention

Key benefits

With real-time visibility of the inventory, **orders can be fulfilled faster**. If these orders are to be served from the factory, the progress of work order and delivery status can be tracked in real time. Also, corrective actions can be taken proactively on risky orders

Efficient order fulfillment to **improve customer satisfaction**

Cash realization will be faster due to real-time tracking and reduction of receivable outstanding

Improve your organization's working capital by reducing daily sales outstanding (DSO) with real-time receivables data

Features

Faster deployment with a SaaS based cloud application from Microsoft

Plug & play application as business process are configured as per best practices

Skilled resources like functional consultants with production certification and relevant domain experience for implementation and support

Swift access to third-party users such as warehouse team, contract manufacturing team and transporters with cloud deployment eases their onboarding

Optimum carrying cost due to real-time inventory tracking to minimize inventory and storage costs
