

Wipro's Process Discovery & Transformation Office

Delivering a seamless transformation

Wipro's Digital Ops Advisory helps organizations start or accelerate their process transformation journey through the combined powers of Process Mining and Discovery tools coupled with the in-house process knowledge management tool to create effective process transformation roadmaps.

Accelerate your process transformation journey with Wipro's Process Discovery & Transformation Office

Technology enablers:

Process/Task Mining: Utilizing the organizational, process and task specific data captured via event logs to determine the most recurring process map/task map

Knowledge Management: Utilizing the vast repository of processes captured to benchmark the process to gold standard processes in the industry

Data Analytics: Real time monitoring of key parameters for continuous improvement of processes

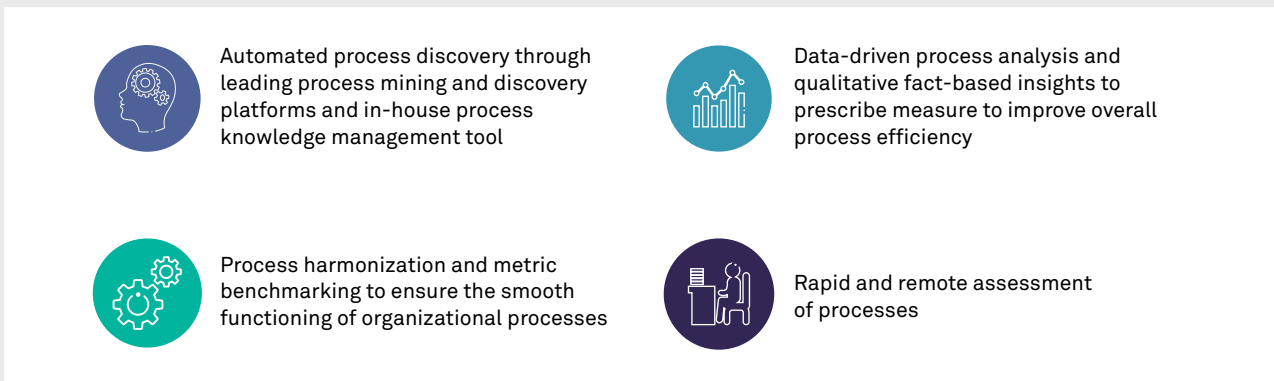

A focused approach to digital transformation

The Process Discovery & Transformation office combines the expertise of our process consultants and leading platforms with certified data and mining engineers across domains to continuously identify processes and suggest the preferred transformation levers to unlock the latent efficiency of your organizational processes.

Key benefits

Features
